Thomas Martin, Principal

NOW BOARDING ALL PASSENGERS FOR GRIZZLY AIRLINES – FLIGHT 2015-2016

It is with great pride that I welcome you to Gudith Elementary! We are so fortunate to have such a dedicated staff, wonderful students, and actively involved parents and community members. I am grateful and honored that you have chosen Gudith for your students' learning journey! We look forward to waking possibilities as we soar to new heights.

At Gudith, we love teaching and learning and are committed to provide your child(ren) with rich learning and educational experiences. As the principal, I will support that goal by being present in classrooms, observing teaching and learning. Therefore, I may not be immediately available in the office when you visit, but I will always contact you within 24 hours. If there is an emergency, please leave message with Ms. McInchak and she will notify me.

We're proud of our state of the art facilities and the exemplary educational program we provide to our students. Our curriculum is based on the State of Michigan Benchmarks and the National Common Core Standards. It is aligned to best meet the needs of our students and the requirements of the State and Federal government. Language Arts, math, science and social studies are taught in every classroom at every grade level. Our classrooms are newly renovated with new technology for both the teacher and student to help facilitate learning and promote higher achievement.

I look forward to traveling together this school year. I invite you to stop by the office so that we can meet in person and I welcome you to involve yourself in our school in a variety of ways.

Gudith...Where learning takes flight!

Sincerely,
Thomas S. Martin, Principal
